

This trash is sometimes known as m.u. 3-1 otherwise called May's folly. In only one issue I have set an all time record for gamemaster goofs. Thanks to Charles Turner & Brian Bailey for pointing out my sundry mistakes and errors. This 'thing' is affiliated with the NPPF and the IFW. Game fees are \$6, \$5 if you belong to either the IFW or the NPPF. Your much-abused editor is David May (and that's you tough luck).

AUSTRIAN VICTORY

- Fall 1814 ; corrections. 1. Aus. did not control Den and Swe. She did control Bul. She gained control of Mos. Her total is still 18, builds two (not three).
2.) Russia gained control of Swe and Den. Russia lost Mos. Russia's total is 5.
3.) The Russian units which were dislodged are eliminated. So she had a total of six on the board making the removal of only one necessary.
4.) Turkey controls Bel. Her total is 10. Turkey builds one

Winter 1804

AUSTRIA (Bailey) Builds A B and C. TURKEY (Turner) Builds F and G.
My personal congrats to Brian.

News of the World

Constantople: The Sultan notes with pleasure the triumph of Austrian arms. Our congratulations to General Baileyoff. We trust that our assistance helps remove the memory of past feuds. Again, congratulations on a victory well deserved and long over-due.
